INTRODUCTION

This Statistical Report on Formal External Trade in Goods pertains to the second quarter of 2025, covering the period from April 2025 to June 2025. It has been produced by the National Institute of Statistics of Rwanda (NISR), through the Department of Economic Statistics (DES) under the External Trade Statistics Team.

A key mandates of the DES is to compile, analyze, and produce statistics and information for the external trade sector following international recommendations. The data presented in this report are compiled by NISR from the data collected by the Rwanda Revenue Authority (RRA), Customs Department, as part of its routine activities to manage, monitor, and facilitate cross-border trade. These data are processed using EUROTRACE and MS Access database management systems (DBMS).

For the collection and compilation of formal external trade statistics, NISR relies on the General Trade System. Under this framework, recorded aggregates include all goods entering or leaving the country's economic territory, with exception of goods in simple transit trade.

Imports include all goods declared for direct domestic consumption, as well as goods imported into customs-bonded warehouses.

Exports cover domestic exports, defined as goods of national origin. This includes goods produced within the exporting country and the goods that have been nationalized.

Re-exports which are exported in the same conditions as imported or after undergoing minor operations which leave them essentially unchanged. This aggregate includes goods re-exported from customs-bonded warehouses.

Partner country is the last known country of destination for exports and the country of origin for imports, as recorded at the time of compilation.

Valuation of imports and exports: Imports are valued on a CIF (Cost, Insurance and Freight) basis while exports and re-exports are valued on a FoB (Free on Board) basis.

Classification of commodities: Data are categorized by partner country and according to international standard classifications such as the Harmonized Commodity Description and Coding System (HS) and the Standard International Trade Classification (SITC). These classifications are linked to national Customs Procedure Codes (CPCs).

Furthermore, the compilation of External Trade Statistics abides by the recommendations of the International Merchandise Trade Statistics: Concepts and Definitions 2010 **(IMTS 2010)** of the United Nations Statistics Division (UNSD). Consequently, the data for this report are compiled on IMTS 2010 basis (not to be confused with data compiled on **Balance of Payments** or **National Accounts basis**)

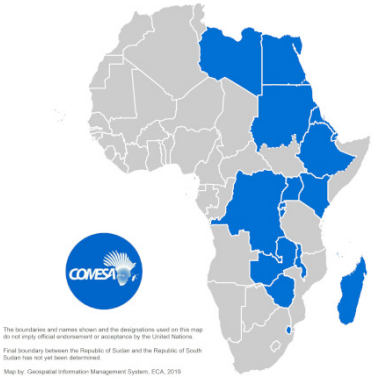
5. TRADE WITH SELECTED REGIONAL ECONOMIC ORGANIZATION

5.1 Common Market for Eastern and Southern Africa



In the second quarter of 2025, Rwanda's total trade with member states of the Common Market for Eastern and Southern Africa (COMESA) reached US$ 424.22 million compared to US$ 559.44 million registered in the same quarter of 2024 and US$ 438.59 million registered in the first quarter of 2025.

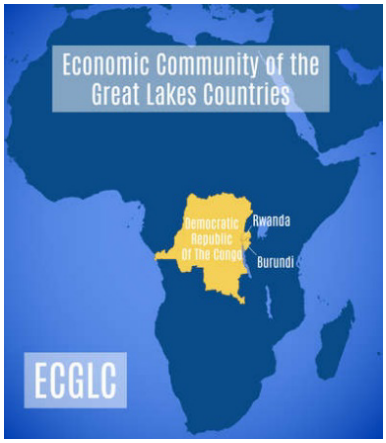
Exports to COMESA member states increased by 48.51% in the second quarter of 2025 compared to the same quarter in 2024 and saw a further increase of 17.16% relative to the first quarter of 2025.

Imports from COMESA member states decreased by 42.06% in 2025 Q2 compared to the same quarter in 2024 and decreased by 14.80 percent compared to the first quarter of 2025.

Regarding re-exports, Rwanda generated revenue estimated at US$ 138.51 million from COMESA member states during the first quarter of 2025. This represents a decrease of 13.79% compared to the same quarter in 2024, but an increase of 4.96% over the preceding quarter of 2025.

Thus, in the second quarter of 2025, a trade surplus of US$ 32.08 million was recorded. This contrasts with a deficit of US$ 117.41 million in the second quarter of 2024 and a deficit of US$ 32.08 million in the first quarter of 2025.

5.2 Communauté Economique des Pays de Grands Lacs



In the second quarter of 2025, total exports to Communauté Economique des Pays de Grands Lacs (CEPGL) Member States (Burundi and the Democratic Republic of Congo), including re-exports, totalized US$ 210.69 million and imports were US$ 20.68 million. Therefore, the trade in goods surplus with CEPGL Member States was US$ 190.02 million compared to a US$ 196.54 million surplus registered in the same quarter of 2024 and to US$ 173.73 million surplus in the first quarter of 2025.

5.3 Southern African Development Community

During the second quarter of 2025, Rwanda's total trade with member states of the Southern African Development Community (SADC) was valued at US$ 429.46 million. This represents a change from US$ 398.30 million recorded in the second quarter of 2024 and US$ 375.25 million in the first quarter of 2025.

On a year-on-year basis, domestic exports to SADC increased by 46.81%, rising from US$ 48.96 million in the second quarter of 2024 to US$ 71.89 million in the second quarter of 2025. Over the same period, imports from SADC increased by 15.59%, from US$ 192.71 million to US$ 222.75 million. Conversely, re-exports declined by 13.92%, falling from US$ 156.63 million to US$ 134.82 million.

Therefore, Rwanda's trade in goods balance with SADC registered a deficit of US$ 16.04 million compared with a surplus of US$ 12.89 million recorded during the same quarter of 2024.

5.4 European Union

In the second quarter of 2025, the trade of Rwanda's goods with the European Union (EU) stood at US$ 131.40 million. This compares to US$ 141.49 million registered in the same quarter of 2024 and US$ 122.55 million in the first quarter of 2025 (United Kingdom exited EU on 31st January 2020).

Consequently, Rwanda's trade with EU reflected a deficit of US$ 38.57 million in the second quarter of 2025 and of US$ 77.09 million in the same quarter of 2024 while US$ 64.83 million has been registered as a deficit in the first quarter of 2025.

5.5 Economic Community of West African States (ECOWAS)
