## Fourth Population and Housing Census, Rwanda, 2012

Final Results  
**Publication tables**

January 2014

The Fourth Rwanda Population and Housing Census (2012 RPHC) was implemented by the National Institute of Statistics of Rwanda (NISR). Field work was conducted from August 16<sup>th</sup> to 30<sup>th</sup>, 2012. The funding for the RPHC was provided by the Government of Rwanda, World Bank (WB), the UKAID (Former DFID), European Union (EU), One UN, United Nations Population Fund (UNFPA), United Nations Development Programme (UNDP), United Nations Children's Fund (UNICEF) and UN Women.

Additional information about the 2012 RPHC may be obtained from the NISR:

P.O. Box 6139, Kigali, Rwanda; Telephone: (250) 252 571 035

E-mail: [info@statistics.gov.rw](mailto:info@statistics.gov.rw); Website: <http://www.statistics.gov.rw>.

## FOREWORD

The undertaking of Population Censuses in Rwanda goes back to the year 1978 where the first ever Census was implemented. The second and third censuses were carried out in 1991 and 2002. The 2012 Census marks the Fourth in the series. It is undoubtedly that Census information, particularly if made available on a regular basis, is indispensable for planning, policy development, evaluation and for research purposes.

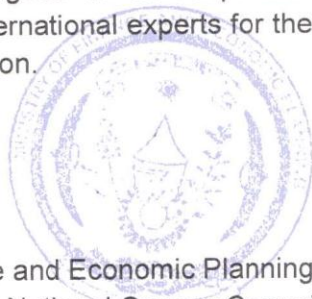

The final results of the 2012 Census are published in the form of statistical tables and analytical thematic reports. Generally, the results provide population counts down to the lowest administrative level, as well as demographic and socioeconomic indicators at both national and district levels. I recommend that such invaluable information contained in the census results be used as updated benchmarks for all development planning, and in monitoring and evaluation of Rwanda's development goals.

On this occasion, I would like to seize this opportunity to thank His Excellency the President of the Republic of Rwanda for his direct support to the census, the Government of Rwanda and development partners for providing the required resources for conducting the 2012 Census. Special gratitude goes to One UN, the European Union (EU), the United Nations Population Fund (UNFPA), the World Bank (WB), the United Kingdom AID (UKAID-formerly DFID), UN Women and UNICEF.

I would also like to thank all members of the National Census Commission and the Census Technical Committee for their able guidance of the entire Census operation. The National Institute of Statistics of Rwanda (NISR) deserves special appreciation for the successful implementation of this huge statistical undertaking and releasing the final results on time.

Special gratitude goes to all respondents, field staff from NISR and other government institutions and international experts for their sincere cooperation and dedication to successfully complete the mission.

  
**Claver GATETE**

Minister of Finance and Economic Planning, and  
Chairperson of the National Census Commission

## ACKNOWLEDGEMENTS

The National Institute of Statistics of Rwanda (NISR) is pleased to release the final results of the Fourth Population and Housing Census (PHC4). The execution of different Census phases: preparatory works, data collection, data processing, tabulation and data analysis continued for about four years -- between 2010 and 2013.

NISR has published several Census analytical reports to be of direct help to policy makers, planners, local authorities and other users. The reports have dealt with several issues from population size and distribution, education, settlement, labour, population projections to mention but a few. NISR hopes that the analytical reports would meet the demand of Census data users at central and local levels.

On this occasion, I would like to pay our sincere gratitude to the President of the Republic of Rwanda for the Presidential Decree No. 02/01 of 07/02/2011 organizing the 4<sup>th</sup> Population and Housing Census and the Minister of Finance and Economic Planning the Chairperson of the National Census Commission for the Ministerial Order No. 001/12/10/TC of 19/01/2012 determining the administrative structure and technical organization of the 2012 Population and Housing Census. These legal instruments laid a solid foundation for all activities that followed without which not much could be achieved.

I also take this opportunity to thank the National Census Commission, the Branches of the Commission at Province and District levels and the Census Technical Committee whose invaluable guidance and advice enabled carrying out Census operations in a highly professional and timely manner.

My greatest gratitude extends to the Government of Rwanda and development partners for availing logistical and technical support.

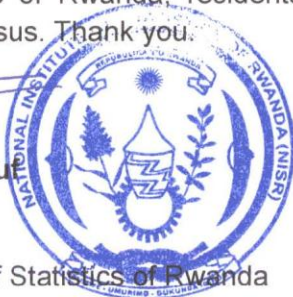

Special recognition goes to the Ministries of Defense, Local Government, Education, Internal Security, Foreign Affairs, the National Police and National Correctional Services for the direct involvement in field data collection operations.

I also wish to express my appreciation to the local government authorities and NISR staff for their excellent operational organization and to the tens of thousands of enumerators and supervisors for their painstaking efforts throughout the data collection phase.

Finally, the people of Rwanda, residents and visitors your cooperation was crucial for the success of the census. Thank you.

  
**MURANGWA Yusu**

Director General,  
National Institute of Statistics of Rwanda

## List of Tables

### 1. Tabulation on Demographic and social characteristics of the population

Table 1.1:	Distribution of the enumerated population by type of household and urban/rural areas and by residence status and sex .....	1
Table 1.1a:	Distribution of the enumerated population by type of household and urban/rural areas and by type of population and sex .....	2
Table 1.2:	Distribution of the resident population by age and sex and by type of household and Urban/rural areas .....	3
Table 1.3:	Distribution of the resident population by five-year age groups and sex and by type of household and Urban/rural areas .....	12
Table 1.4a:	Distribution of the resident population aged 12 years and above by five-year age groups and by marital status and sex (RWANDA) .....	15
Table 1.4b:	Distribution of the resident population aged 12 years and above by five-year age groups and by marital status and sex (URBAN) .....	18
Table 1.4c:	Distribution of the resident population aged 12 years and above by five-year age groups and by marital status and sex (RURAL) .....	20
Table 1.5:	Distribution of the resident population in private households by religious affiliation and by urban/rural areas and by sex .....	22
Table 1.6:	Distribution of the resident population in private households aged 0-17 years by survivorship of biological parents and by sex and five-year age groups .....	23
Table 1.7a:	Distribution of the resident population in private households aged 0-17 years by residence with parents and by sex and five-year age groups (RWANDA) .....	24
Table 1.7b:	Distribution of the resident population in private households aged 0-17 years by residence with parents and by sex and five-year age groups (URBAN) .....	25
Table 1.7c:	Distribution of the resident population in private households aged 0-17 years by residence with parents and by sex and five-year age groups (RURAL) .....	26
Table 1.8:	Distribution of resident population in private households by medical insurance most used by sex and five-year age groups .....	27
Table 1.9a:	Distribution of the resident population in private households aged 0-17 years by birth registration, and by sex and single age (RWANDA) .....	29

Table 1.9b:	Distribution of the resident population in private households aged 0-17 years by birth registration, and by sex and single age (URBAN) .....	31
Table 1.9c:	Distribution of the resident population in private households aged 0-17 years by birth registration, and by sex and single age (RURAL) .....	33

## **2. Tabulation on Geographic and internal migration characteristics**

Table 2.1:	Distribution of the resident population by Province, District and Sector and by Urban/rural areas and Sex .....	35
Table 2.2:	Distribution of the resident native and foreign-born population by Sex and Age and by Urban/rural areas .....	58
Table 2.3:	Distribution of the resident Population in private household by duration of Residence in the District of usual residence and sex, and by five-year age group .....	60

## **3. Tabulation on International Migration and immigrant stock**

Table 3.1:	Distribution of the resident population by nationality, and by sex and five-year age groups .....	63
Table 3.2:	Distribution of the foreign-born population by country of birth and by five-year age groups and sex .....	65

## **4. Tabulation on Household characteristics**

Table 4.1:	Distribution of the resident population in private Household by sex and their relationship to the household head, and by Urban/rural areas .....	67
Table 4.2:	Distribution of the private households and their corresponding population by Sex of household head and age of the household members and by urban/rural areas .....	69
Table 4.3:	Distribution of the private households by their size and by Sex of the household Head and urban/rural areas .....	72

## 5. Tabulation on Fertility and Mortality

Table 5.1:	Distribution of the resident female population in Private households aged 12 years and above by five- year age groups and by number and sex of children ever-born .....	73
Table 5.2:	Distribution of the resident female population in Private households aged 12 years and above by five-year age groups and by number and sex of surviving children among the children ever -born alive .....	76
Table 5.3:	Distribution of the resident female population in private households aged 12 years and above by five- year age groups and by number and sex of children ever born alive, surviving children among them and dead children among them .....	79
Table 5.4:	Distribution of the resident female population in private households aged 12 -54 years by five-year age groups and by number and sex of children born alive in the 12 months preceding the census, the number of surviving among them and number of dead among them .....	80

## 6. Tabulation on Educational characteristics of the population

Table 6.1a:	Distribution of the resident population aged 3 years and above by highest level of educational attainment and by sex and by five-years age groups (RWANDA) .....	81
Table 6.1b:	Distribution of the resident population aged 3 years and above by highest level of educational attainment and by sex and five-years age groups (URBAN) .....	83
Table 6.1c:	Distribution of the resident population aged 3 years and above by highest level of educational attainment and by sex and by five-years age groups (RURAL) .....	85
Table 6.3	Distribution of the resident population aged 15 years and above by literacy, age and sex .....	89

## 7. Tabulation on Economic Activity characteristics

Table 7.1:	Distribution of the resident population in private households aged 5 years and above by current economic activity status and by sex and five-year age groups .....	92
Table 7.2:	Distribution of the resident population in private households aged 5 years and above by current economic activity status and by highest level of educational attainment and sex .....	95

Table 7.3:	Distribution of the current employed and new job seekers resident population aged 5 years and above by major groups of occupation and by age groups and sex .....	96
Table 7.4a:	Distribution of the current employed by main industry and by age groups and sex (Rwanda) .....	97
Table 7.5a:	Distribution of the current employed and new job seekers by status in employment and by age groups and sex (RWANDA) ..	100
Table 7.5b:	Distribution of the current employed and new job seekers by status in employment and by age groups and sex (Urban) ...	101
Table 7.5c:	Distribution of the current employed and new job seekers by status in employment and by age groups and sex (Rural) ....	102
Table 7.7a:	Distribution of the current employed resident population the private households aged 5 years and above by main occupation and by country of birth and sex (RWANDA) .....	105
Table 7.7b:	Distribution of the current employed resident population the private households aged 5 years and above .....	107
	by main occupation and by country of birth and sex (Urban) .....	107
Table 7.7c:	Distribution of the current employed resident population the private households aged 5 years and above .....	109
	by main occupation and by country of birth and sex (Rural) .....	109

## 8. Tabulation on disabilities

Table 8.1:	Distribution of the resident population aged 5 years and above by disability status by sex and five-year age groups and urban/rural areas .....	111
Table 8.2a:	Number of the resident population aged 5 years and above by type of disability and by sex and by five-years age group (RWANDA) .....	114
Table 8.2b:	Number of the resident population aged 5 years and above by type of disability and by sex and by five-years age group (URBAN) .....	117
Table 8.2c:	Number of the resident population aged 5 years and above by type of disability and by sex and by five-years age group (RURAL) .....	120
Table 8.3:	Distribution of the resident population aged 5 years and above by disabilities status, sex and age group and by highest level of educational attainment .....	123

## 9. Tabulation on Housing characteristics

Table 9.1:	Distribution of the private households and their corresponding resident population by urban/rural areas, Sex and five-year age groups of the household .....	127
Table 9.2:	Distribution of the private households by number of household members, and urban/rural areas and by number of bedrooms in the housing unit .....	129
Table 9.3:	Distribution of the private households and their corresponding resident population by type of habitat and by urban/rural areas .....	131
Table 9.4:	Distribution of private households and their corresponding resident population by tenure of housing unit and urban/rural areas .....	132
Table 9.5:	Distribution of the private households and their corresponding resident population by type of roof material and by urban/rural areas .....	133
Table 9.6:	Distribution of the private households and their corresponding resident population by material of walls and by urban/rural areas .....	134
Table 9.7:	Distribution of the private households and their corresponding resident population by type of floor materials and by urban/rural areas .....	135
Table 9.8:	Distribution of the private households and their corresponding resident population by main source of water and by urban/rural areas .....	136
Table 9.9:	Distribution of the private households and their corresponding resident population by type of toilet facility and by urban/rural areas .....	137
Table 9.10:	Distribution of the private households and their corresponding resident population by main source of energy for lighting and by urban/rural areas .....	138
Table 9.11:	Distribution of the private households and their corresponding resident population by main source of energy for cooking and by urban/rural areas .....	139
Table 9.12:	Distribution of the private households and their corresponding population by mode of sewage disposal for the housing units and by urban/rural areas .....	140
Table 9.13:	Number of the private households and their corresponding population by availability of some assets and by urban/rural areas .....	141
