

2025 HACKATHON COMPETITION

This competition is designed to engage university students in developing innovative data-driven solutions. This hackathon brings together innovators and data enthusiastic students to tackle major challenges facing Rwanda today. Participants are encouraged to find data which can help them tackle their chosen challenge and provide a data science solution.

2025 INFOGRAPHIC COMPETITION

This competition encourages students to creatively transform statistical reports published on the NISR website into visually engaging and informative infographics. By simplifying complex statistical information, these infographics make the data more accessible and easier for the public to understand, fostering a greater appreciation for the importance of statistics among young people.
