FOREWORD

The Government of Rwanda, through the National Institute of Statistics of Rwanda (NISR) conducted the 2022 Rwanda Population and Housing Census to provide updated demographic, social and economic indicators for policy formulation and planning to support the national development agenda and track the implementation of national, regional, continental and global development goals, such as the First National Strategy for Transformation (NST1 2017-2024); the AU Agenda 2063; and the Sustainable Development Goals (SDGs).

The Population and Housing Census in Rwanda dates back to the year 1978 when the first ever modern census was implemented. The second, third, and fourth censuses were carried out in 1991, 2002, and 2012 respectively. The 2022 Population and Housing Census marks therefore the Fifth in the series following the United Nations Recommendations to conduct a census every ten years.

Considering census' crucial importance for the planning process, the Government of Rwanda has made the Population and Housing Census a priority to be undertaken every 10 years and adopted the use of technologies for timely delivery of census results for use.

Results of the 2022 Population and Housing Census provide population numbers from national to the lowest administrative level, as well as demographic and socio-economic indicators at both national and district levels. The census remains the only national data collection exercise that can provide the lowest levels of disaggregation to support decentralised decision making across the country.

I would like therefore to take this opportunity to thank all stakeholders that contributed to the success of the 2022 Population and Housing Census. They include Ministries and other Government institutions, international organizations such as the World Bank (WB), the European Union (EU), the United Nations Population Fund (UNFPA), One-UN, UN Women, UNICEF, UNECA, the United Kingdom AID (UKAID), the African Development Bank (AfDB), the USAID, Enabel, PARIS 21 and others for their support in diverse ways.

My special thanks go to the local government leaders from the province to the village levels who contributed a lot to the success of the 2022 Population and Housing Census. Exceptional gratitude to all enumerators, teachers and young people who collected the information and all respondents for their cooperation and dedication. The National Institute of Statistics of Rwanda (NISR) deserves special appreciation for the excellent operational and coordination of all census activities.

I finally recommend that the invaluable information contained in different thematic reports of the 5th Rwanda Population and Housing Census be used as updated evidence for all decision and policy making for the national, regional and global development programs.

Dr. Uzziel NDAGUBANA
Minister of Finance and Economic Planning

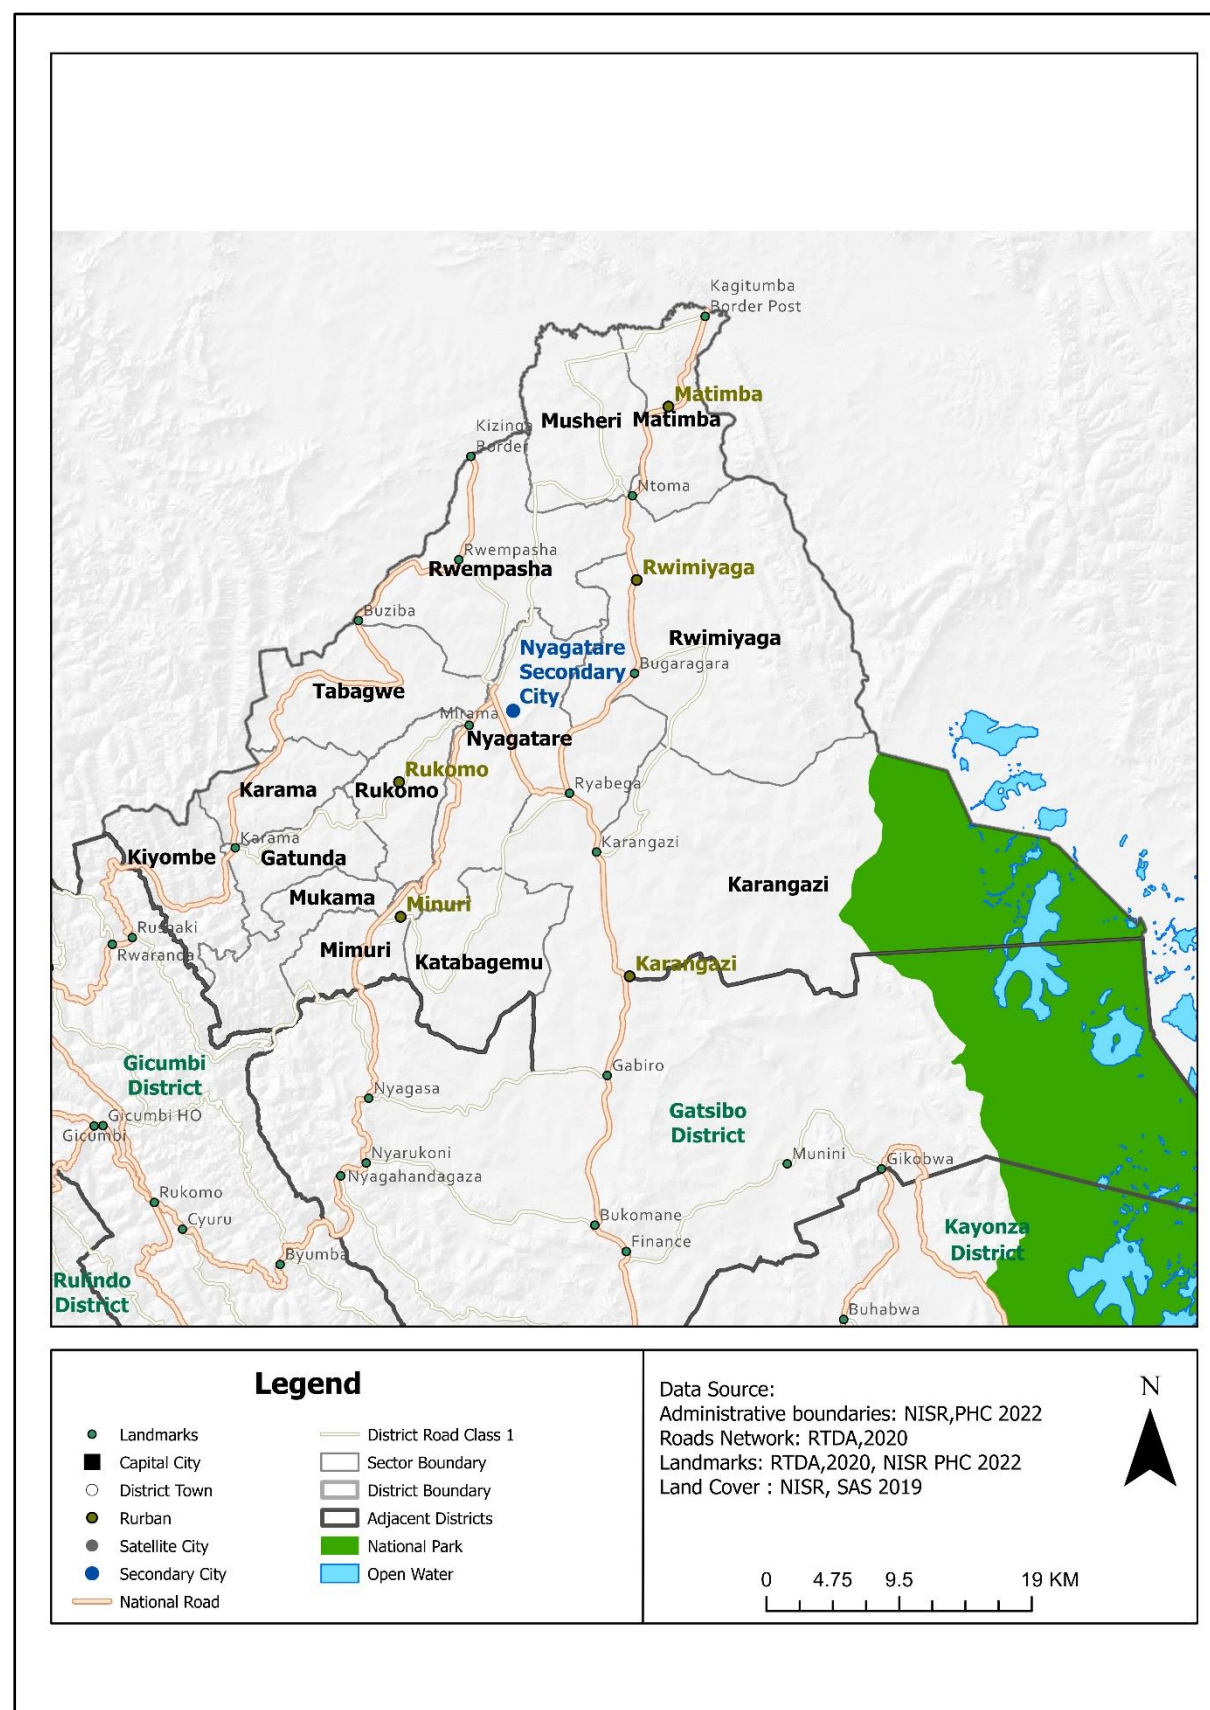

ACKNOWLEDGEMENTS

The National Institute of Statistics of Rwanda (NISR) is pleased to release the results of the Fifth Population and Housing Census (RPHC5). The execution of different Census phases: preparatory works, data collection, data processing, tabulation and data analysis spans a period of about four years between 2020 and 2023.

NISR is pleased to publish the main indicators report as the main flagship report of the RPHC5. This

CHAPTER 1: POPULATION SIZE, SPATIAL DISTRIBUTION, AND STRUCTURE

1.1 Size and spatial Distribution of the population

1.1.1 Size and Spatial Distribution of the Population of East Province

The 5th Rwanda Population and Housing Census (PHC5) has enumerated 3,563,145 residents in East Province, which represents 26.9% of the total population of Rwanda (13,246,394 residents). The population of the East Province is predominantly female; 1,828,751 are women corresponding to 51.3 % of the total population of the East Province. Nyagatare is the most populated district with 653,861 residents in 2022. Its population represents 18.4% of the total residents' population of East Province. The least populated district in the East Province is Ngoma with 404,048 inhabitants, corresponding to 11.3% of the total resident population of East Province.

Table 1. 1 Resident population distribution of the East Province by sex and District

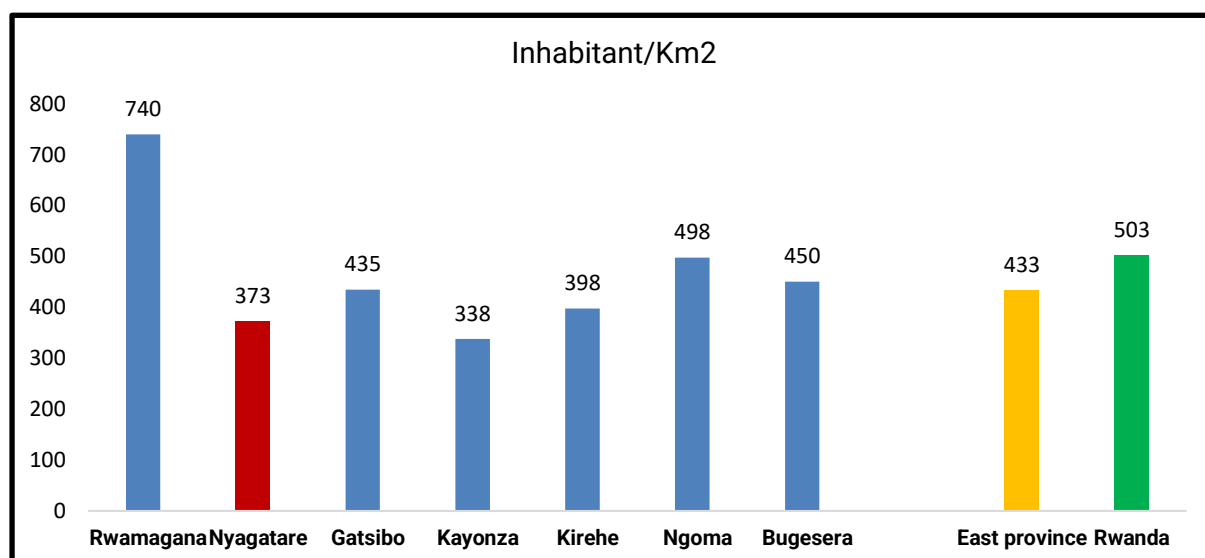

District	Frequency			Percent			Both sex

1.1.2 Population Density of the East Province by District

Population density is a measurement of population per unit land area. Density is the number of the inhabitant per Km². The Rwanda Population and Housing Census conducted in 2022 revealed that, the population density in Rwanda is 503 inhabitants per Km². The East Province has 2401 inhabitant per Km². The district with a high population density is Kicukiro with 2,944 Inhabitants per km². The district with a lowest population density is Nyagatare with 2,056 Inhabitants per km². The figure below indicates distribution of population density per district.

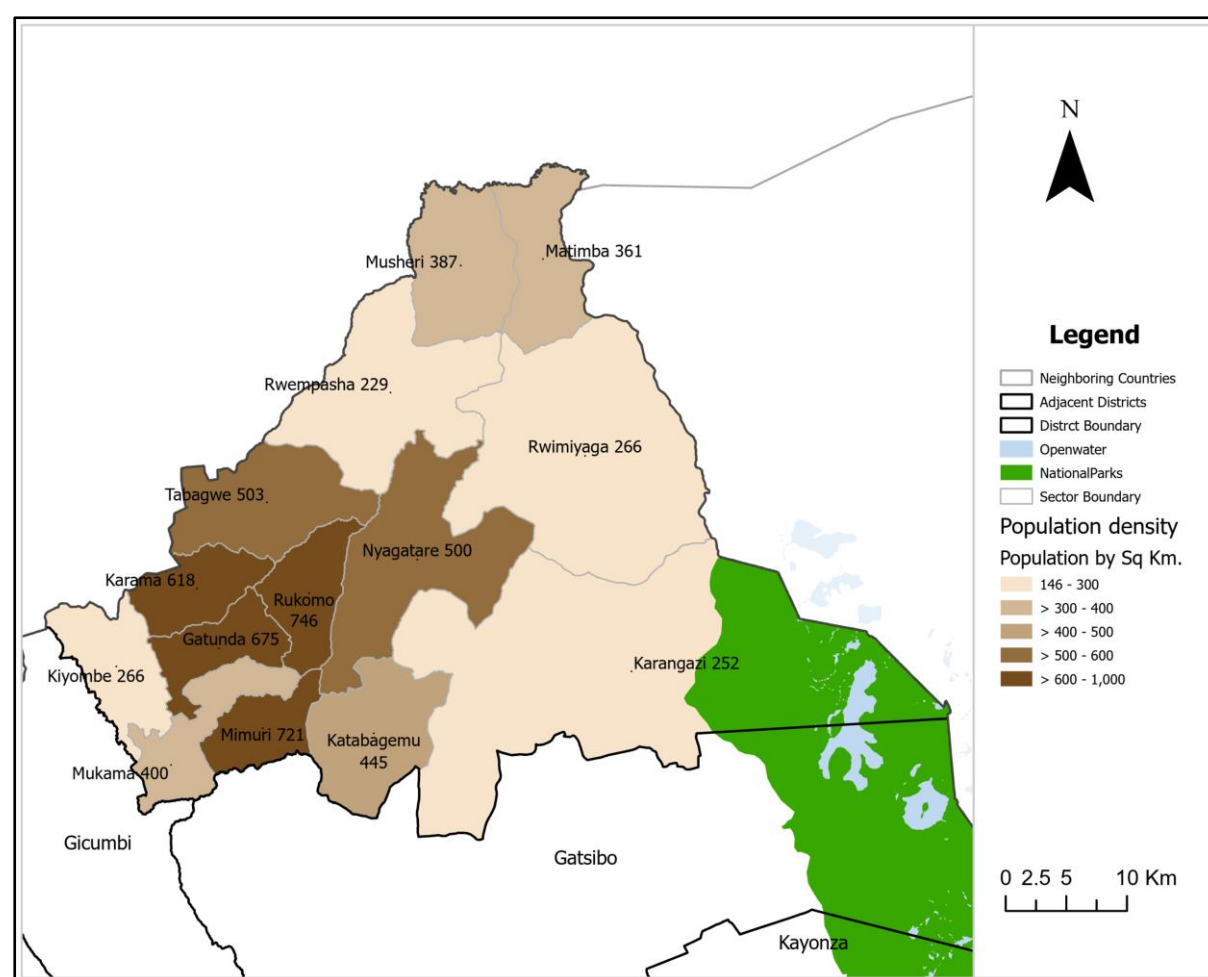

Figure1. 1 Population density (inhabitant per Km²) by district in East Province

Fifth Rwanda Population and Housing Census, 2022(NISR)

The population density of Nyagatare District by sector are displayed in the map below:

Figure1. 2 Distribution of population density by sectors of Nyagatare District

1.1.3 Size and Spatial Distribution of the Population of Nyagatare District

The 5th Rwanda Population and Housing Census (PHC5) has enumerated 653,861 residents in Nyagatare District, which represent 18.4% of the total population of the East Province (3,563,145 residents). The population of Nyagatare District is predominantly female: 335,121 corresponding to 51.3 % of its total population. The results in previous table 1.1 indicates that, the population share of Nyagatare District is 18.4% of the total East Province population.

The table below 1.2 indicates the number of the population of Nyagatare District by sector, by sex and their shares across sectors to the total population of Nyagatare District. Females are predominant in all 14 sectors of the district. Karangazi (96,915 population), Rwimiyaga (82,620 population) and Nyagatare (81,915 Population) are the most populated sectors. They represent 14.8% 12.6 and 12.5% of the total population of Nyagatare District. The two less populated sectors are Kiyombe (18,801 inhabitants) and Mukama (25,659 inhabitants). They represent 2.9% and 3.9% of the total resident population of Nyagatare District, respectively.

1.1.4 Size and Spatial Distribution of the Population of Nyagatare District by residence area

The results of Rwanda Population and housing census 2022 revealed that, the total population of Rwanda are spatially distributed in rural area that represent 72.1% and urban area represent 27.9%. The East Province is predominantly rural (79.1%). Nyagatare District population is also predominantly rural 75.9% while rural represents 18.8%. The sectors of Nyagatare District which are entirely rural are Gatunda, Katabagemu, and Kiyombe. The table below 1.3 illustrates the results.

Table 1. 3 Distribution (Count and %) of Resident Population of Nyagatare District by sector and Area of Residence in 2022

1.1.5 Size and Spatial Distribution of the Population of Nyagatare District

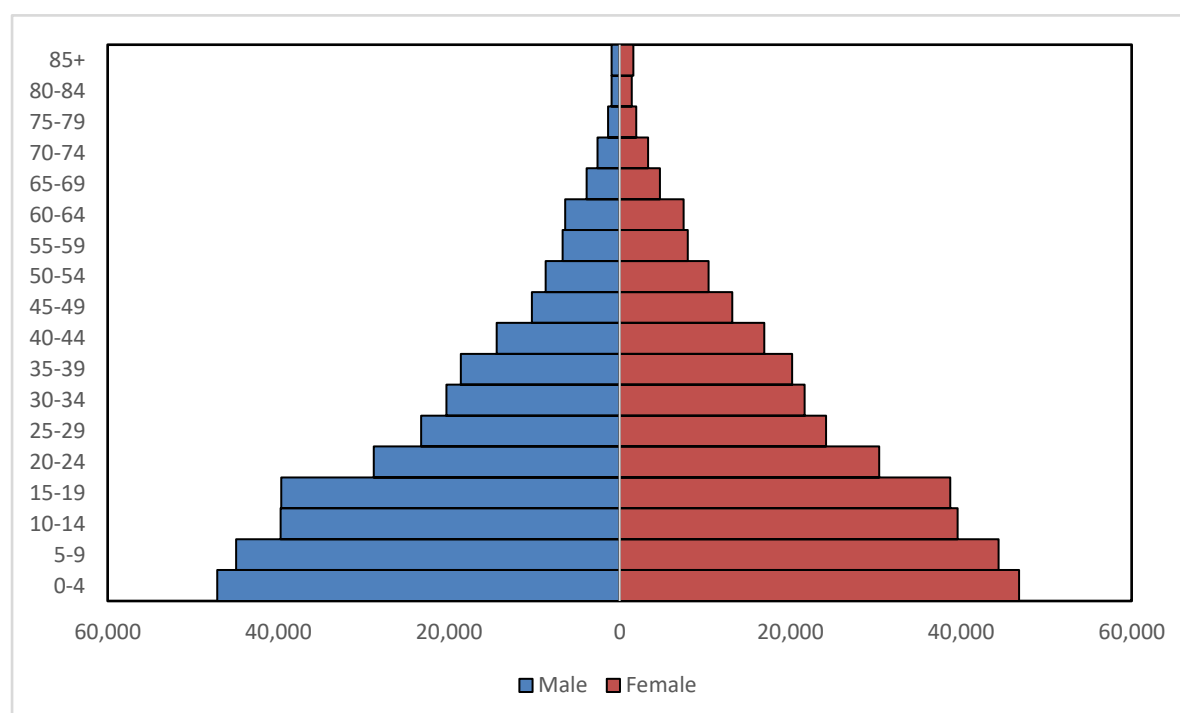

Nyagatare population is mostly young. 52.2% of the resident population of Nyagatare is under 20 years, as shown by the age pyramid (Figure 4), reflecting the high level of fertility in the recent past. The elderly (60 years and above) represents 5.6% of the total population of the district. The table below 1.4 illustrates the results, and more details of sectors are in the annex.

Table 1. 4 Distribution (Count and %) of Resident Population of Nyagatare District by 5-Year Age Group and Sex in 2022

	Counts			Percent

1.1.6 population share of some specific interventions target groups in Nyagatare District by sex.

The Rwanda population and housing census 2022 indicate the population on specific ages-based programs, policy and strategies interventions in health, education, employment and indicates the population categories in their respective characteristics such as children, youth, working population, among other things. For instance, children under five years for immunization programs (Under 5

years children), children in school age (3-17 years), people in the official working age group (16 years and above), etc. Knowing the size of such groups is of great importance for the design, implementation, monitoring, and evaluation of programs targeting such groups. The below table gives the size of the main interventions target groups by sex, and their share in the entire population of Nyagatare District. The population aged 0-17 represents 47.7% of the total population of the district, 16-30 years represent 27.2%; the economically active population aged 16 years and above represents 57.3% of the same population. The table below shows distribution of Nyagatare Districts population by targeted interventions by their age.

Table 1. 5 Number and population share (%) of some specific interventions target groups in Nyagatare District by sex

CHAPTER 2: CHARACTERISTICS OF THE POPULATION

2.1 Socio-cultural characteristics of the population

2.1.1 Nationality of the population of Nyagatare District

The results of 5th RPHC-2022 indicate that, the Rwandan population by nationality represent 99.1% and foreigners represent 0.9%. In the East province, foreigners represent 1.7% and Nyagatare District, the Rwandan by nationality represent 99.8% and foreigners represent 0.2% (1,441). All sectors of Nyagatare District have less than one percent with three that have the highest percentage of foreigners compared to others, which are Matimba (0.5%), Rwempasha and Nyagatare (0.4%). The table below illustrates the distribution of the population by nationality with their respective sectors of residence.

Table 2. 1 Distribution (count and %) of the resident population of Nyagatare District by Nationality and sector

Source: Fifth Rwanda Population and Housing Census, 2022 (NISR)

Table 2.6 shows that in Nyagatare District 86.2% of children age 6 to 11 years (the official primary school-going age) are currently attending school 11.7% have never attended school and only 2.1% have previously attended school (which means that 13.8 of children aged 6 to 11 are out of school).

By comparing the distribution of the primary school-age population (6-11 years) across sectors in Nyagatare District, comparisons reveal the disparities in primary school attendance across different sectors within Nyagatare District. Sectors like Karangazi, and Musheri exhibit lower rates of children currently attending school (82.8 against 83.1%, respectively) and higher rates of children who have never attended (14.7 against 14.4%, respectively). On the other hand, sectors like Rukomo, Gatunda and Kiyombe demonstrate higher rates of children currently attending school (91%, 90.7% against 90%, respectively) and lower rates of children who have never attended (7.6, 8.1 against 8.0%, respectively).

2.3.2 Gross and Net Attendance Rate (%) in Primary School

Gross and Net Attendance Ratios are used to measure the extent of coverage of an educational program. It gives a comparison of the children attending school with the total size of the school-age population. It can also be used for assessing how far a country has succeeded in bringing to school all those who are eligible to attend.

The results of 5th RPHC 2022 reveal that not all children attending primary school level are of the official age for that level (6-11 years). The gross attendance rate in Rwanda is 141.7, in the East Province GAR is 141.7 and 140.1 in Nyagatare District. At sector level, GAR are greater than 134 in all sectors, with Gatunda having the biggest GAR (151). The net attendance rate (NAR) in Primary school for Nyagatare District (86.2%) is slightly below the NAR of the East Province (87.4%) and NAR of Nyagatare is lower than the NAR of national level (89.3%). The highest net attendance rate in primary school (91%) is in Rukomo sector followed by Gatunda sector with 90.7% while the sector with the lowest NAR is Karangazi with 82.8%. The table below displays results:

⁴ The Distribution (count and %) of the Secondary -age (12-17 years) population of Nyagatare District by Sector and by school attendance status, by male and by female is in the annexe

2.3.3. Gross and Net Attendance Rate (%) in Secondary School

The table 2.9 provides information on the gross and net attendance rates in the secondary school level (12-17 years) in Nyagatare District, disaggregated by sex and sector. The East Province and Nyagatare District both have lower NARs than the national average (19.2% and 18.6%, respectively, versus 22.3%) when compared to the national average. Comparing males and females in Nyagatare District in terms of Net Attendance Rates (NAR), the table 2. 9 indicates that a higher proportion of females 20.8%) in Nyagatare District, within the secondary school-age range (12-17 years), are attending school compared to males (16.4%). Female students older or younger than the official secondary school age range made up 43.2% $[(GAR36.6 - NAR20.8)/GAR36.6]$ of the female with secondary school age of Nyagatare District, while for male students it made up 50.3 % $[(GAR33 - NAR16.4)/GAR33]$. This shows that females have a higher attendance rate in Nyagatare District compared to males when considering the overall attendance rates, regardless of age or grade-level eligibility. At the sector level, the highest net attendance rate is in Matimba (24.4%) and Rukomo (23.7%) the lowest is in Karama and Musheri (14.6% and 15.1% respectively).

⁵ **Enrollment** is the act of enrolling or the state of being enrolled while **Attendance** is (the state of attending) the state of attending, presence.

2.3.4 Highest level of school attended in Nyagatare District

The results of 5RPHC-2022 indicate the total population of Rwanda aged 3 and above is 11,999,691. The highest level of education attended is categorized into several levels: Never attended School, Nursery, Primary, INGOBOKA/Vocational, Lower secondary, Upper secondary, University, and Not stated. In Rwanda, 16.7% of the population aged 3 years and above has never attended school, while 2.7% have attended nursery, and 59.5% have attended primary school. Other education levels include 0.8% for INGOBOKA/Vocational, 9.6% for lower secondary, 7.1% for upper secondary, 3.6% for university, and 0.0% is not stated.

The population age 3 and above in East Province are 3,215,103. The distribution of the highest level of education attended is like the national level, with slight variations. In the East Province, 19.8% of the population has never attended school, while 3.3% have attended nursery, and 59.5% have attended primary school. Other education levels include 0.4% for INGOBOKA /Vocational, 9.0% for lower secondary, 5.8% for upper secondary, 2.1% for university, and 0.0% is not stated.

It also indicates that, among the population aged 3 years and above 589,280 in Nyagatare District, 19.8% of them has never attended any formal school, 59.5% attained the primary level, 9% attained lower secondary level, 5.8% has attended upper secondary and 2.1% attended university level. The level of educational attainment varies across sectors, Gatunda is highest percentage of primary school attainment (62.2%), Matimba is highest in upper secondary school attainment (7.8%), and Nyagatare has a high percentage of 6.3% of the population attended University than other sectors. The table below indicates the findings:

Table 2. 10 Distribution (Count and %) of the resident population of Nyagatare District aged 3 and above by highest level of school attended by sector (Both sexes)⁶

2.4 Characteristics of the Employed Population

The official working age in Rwanda is 16 years and above. Aggregate employment generally increases with growing population. Therefore, the ratio of Employment to the working age population (employment to population ratio) is an important indicator of the capacity of the Economy to provide employment to a growing population. A decline in the employment-to population ratio is often regarded as an indicator of economic slowdown and a decline in total employment as an indicator of a more severe economic downturn.

2.4.1 Employment to population ratio by sex, Province, District and area of residence

The results presented in the below table 2.9 shows that the employment to population ratio stood at 45.9% in Rwanda, it is lower among females (40.2 percent) than males (52.4%). On the other side, it was observed that the employment to population ratio is higher in urban areas of Rwanda (53.5%) than in rural areas (42.7%).

It was observed that in East Province, the employment to population ratio stood at 47.9 percent, it is higher in urban areas (53.1%) than in rural areas of East Province (46.5%).

⁶ The Distribution (Count and %) of the resident population of Nyagatare District aged 3 and above by highest level of school attended by sector, by male and by female is in the annex

It was also revealed that the employment to population ratio is 51.5% among people residing in Nyagatare district, it is higher in urban areas of Nyagatare (54.0%) than in rural areas of Nyagatare (48.7%).

Table 2. 11 Employment to population ratio by sex, Province, District, and area of residence

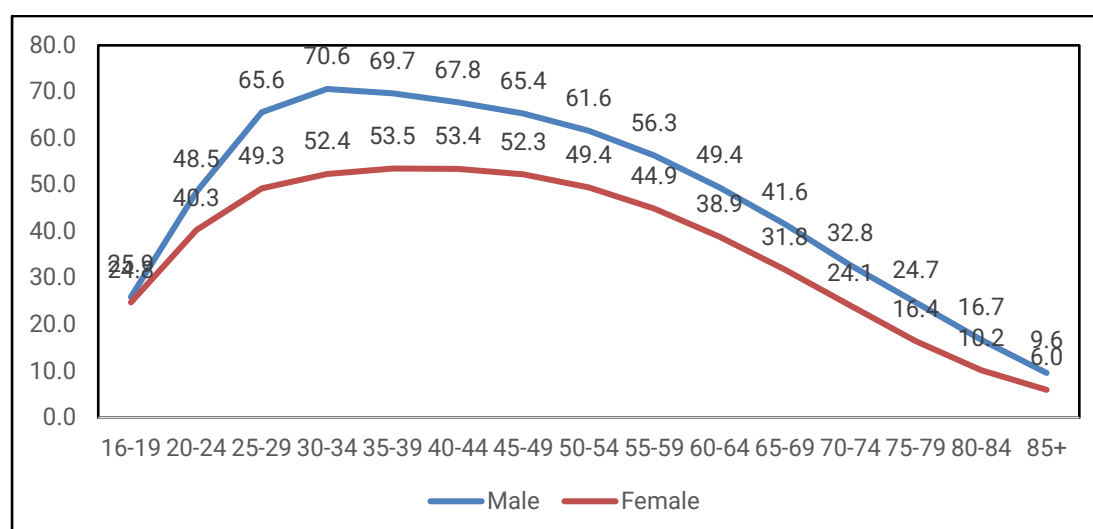

District	Total			Urban			Rural		
	Both Sexes	Male	Female	Both Sexes	Male	Female	Both Sexes	Male	Female
Rwanda	45.9	52.4	40.2	53.5	62.7	44.8	42.7	47.9	38.3

2.4.2 Employment to population ratio (EPR) among the resident population of Nyagatare aged 16 years and above by age group and sex.

Figure 2.1 allows the study of the calendar and intensity of labor force participation and its variation by sex. The figure reveals the following remarks: Early entry and late exit to the labor market in Nyagatare District were around 25.3% at age 16 (the official age for entry into the labour market) and above 43.4% at 60 years (official age of retirement). Labor force participation is intense between ages 25 and 60 with an average of 63.3% of male and 49.3% of female population in labor market. Important gender disparities are remarkable in labor force participation at all age groups; males contribute more than females to labor force.

Figure2. 1 Employment to Population Ratio by age group and sex

source: Rwanda 5th population and housing census, 2022

2.4.3 Proportion of Youth (16-30) neither in employment nor in education or training in city of Kigali by sex, district, and area of residence.

The results of 5RPHC-2022 indicate that, In Rwanda the proportion of Youth (16-30) neither in employment nor in education or training stood at 39.5 %. It is higher among females (43.8 %) than males (34.9 %).

In East Province, the proportion of youth (16-30) neither in employment nor in education or training is 38.9%, it is lower among males (31.9%) than females (43.1%). 2022 census results also revealed that the aforementioned proportion is higher in rural areas of East (40.7 %) than in urban areas of Kigali (32.5 percent).

The proportion of youth (16-30) neither in employment nor in education or training among people residing in Nyagatare District stood at 35.1%. It is much higher (36.4 percent) among people residing in rural areas of Nyagatare district than the ones residing in urban areas of Nyagatare District (31.4 percent). The differentials at sector levels are also shown in table 2.12 below.

CHAPTER 3: SUB-POPULATION

3.1 Children Population (0-17 years)

According to the UN Convention on the Rights of the Child (1989), a child is defined as every human being under 18 unless, under the law applicable to the child, majority is attained earlier. It is relevant to underline here that this definition by age coincides with that of Rwanda, as stipulated in Article 3 of the National Law n° 54/2011 of 14 December 2011 relating to the rights and the protection of the child, which stipulates that a child is any person under the age of 18. The age range (0–17) adopted for this report reflects this definition.

3.1.1 The number and share of children age 0-17 years among the total resident population of Nyagatare District by sex and sector of residence

The results of 5th RPHC-2022 revealed that, the children population constitute 44.5% of the total population of 13,246,394. The East Province has 1,656,727 children with a share of 46.5% of the total resident population. In Nyagatare District, the children constitute 47.7% of the resident population of the district, with a percentage of males slightly greater than the females' one (49.2% vs 46.2%). The children's share is high in Rwimiyaga (49.9%) and Musheru (49.3%), and small in Kiyombe (43.1%) and Mukama (43.7%). The table below indicate distribution of children by sector and by sex.

Table 3. 1 Number and share (%) of children aged 0-17 years among the total resident population of Nyagatare District by sex and sector of residence.

Sectors	Total Resident population			Total resident children			Children share (%)		
	Both sexes	Male	Female	Both sexes	Male	Female	Both sexes	Male	Female

3.2 Youth population in Rwanda

For statistical purposes, the United Nations defines "youth" as those persons between the ages of 15 and 24 years, without prejudice to other definitions by Member States. Considering the current priorities and trends of Rwanda's Development, the definition of Youth in terms of age has been revised in this policy. It was brought from 14 -35 years to 16–30 years.

3.2.1 The youth population in Nyagatare District

The results of 5th Population and housing Censuses conducted in 2022 revealed that, the youth represent 27.14% (3,595,670) of the total population (13,246,394). The youth population in Nyagatare District is 177,981 which represents 27.2% of the total resident population of the district (653,8).61 The sector with the highest youth share is Nyagatare (29.7%) while Matimba (25.8%) has the lowest share of youth. The table below indicate distribution of youth by sector, and by sex.

Table 3. 4 Number and share (%) of the resident youth aged 16-30 years among the total resident population of Nyagatare District by Sector of residence and sex.

Sector	Total resident population			Youth resident population (16-30 years)			Youth share (%)

3.4 Elderly Population (60 years and above)

Rwanda has enacted laws such as the Law No 088/01 of 07/09/2020 (Office of the Official Gazette of Rwanda, 2020) on Presidential order ratifying the protocol to the African charter on human and peoples' rights on the rights of older persons in Africa adopted by the twenty sixth ordinary session of the Assembly, held in Addis Ababa, Ethiopia, on 31 January 2016 through an Official Gazette No.27 of 07/09/2020 and Law No.59/2008 of 10/09/2008 on prevention and punishment of gender- based violence (Office of the Official Gazette of Rwanda, 2008), whose Article 32 sets the penalty for violence against an elderly person.

It is over two decades since the United Nations convened the First World Assembly on Ageing (Vienna, 1982) (National Academy of Sciences, National Research Council, 2001)) that launched an international action program, which was the first international instrument on ageing, to provide a foundation for the formulation of policies and programmes on ageing. This was done to guarantee economic and social security to older persons and other opportunities to contribute to national development.

3.4.1 Elderly population of Nyagatare district by Sector

In 2022, the elderly persons constitute 5.6% of the total resident population of Nyagatare District. The share of the elderly females is higher than the male's one (6.1% vs. 5.1%), reflecting the higher life expectancy for women.

Table 3. 12 Number and share (%) of the resident elderly (aged 60 years and above) among the total resident population of Nyagatare District by Sector of residence and sex

CHAPTER 4: HOUSEHOLDS AND HOUSING CHARACTERISTICS

4.1 Household characteristics

In this chapter 5th Population and housing census 2022 investigated households and housing characteristics; those include household size, head of household by sex, type of habitat, housing tenure, materials used for construction, sources of energy used for lighting and cooking, water sources, sanitation facilities, asset possessed by household and mode of waste and disposals.

4.1.1 Number of households and size of household members

The results of 5th RPHC 2022 indicate that there is a total of 3,312,743 Private households in Rwanda, 886,132 in the East Province and 160,435 in Nyagatare District. The average household size in Nyagatare District is 4.1 persons per household. At the Sector level, the highest sizes are found in Musheru (4.4 persons/household) and Rwimiyaga (4.3 persons/household). The smallest household sizes are found in Mimuri (3.7 persons/household). The table below indicates number of households and size of household members per sector.

Table4. 1 Distribution of the private households and their corresponding population and mean size

Sectors	Number of Private Households	Corresponding Population ⁹	Average Size of Household
Rwanda	3,312,743	13,100,600	4.0

Fifth Rwanda Population and Housing Census, 2022(NISR)

4.2 Housing Characteristics

4.2.1 Type of habitat

The results of 5th Population and Housing Census 2022 revealed that in the East Province the predominant type of habitat is Umudugudu planned Rural settlement (86.5%) and Dispersed/ Isolated housing (7.4%). The most common type of habitat in Nyagatare District is also planned Rural settlement (84.4%) followed by Dispersed/ Isolated housing (10.5%) and Spontaneous/squatter housing (2.3%). The type of habitat does not vary across sectors since they are predominantly rural. Planned Rural settlement is most prevalent in all Sectors of Nyagatare, very high in Karama (97%) and Gatunda (68.7%) and low in Rwempasha (53.8%). The sectors with the highest percentages of dispersed/isolated housing units are Rwempasha (26.9%). The table below displays results by sector.

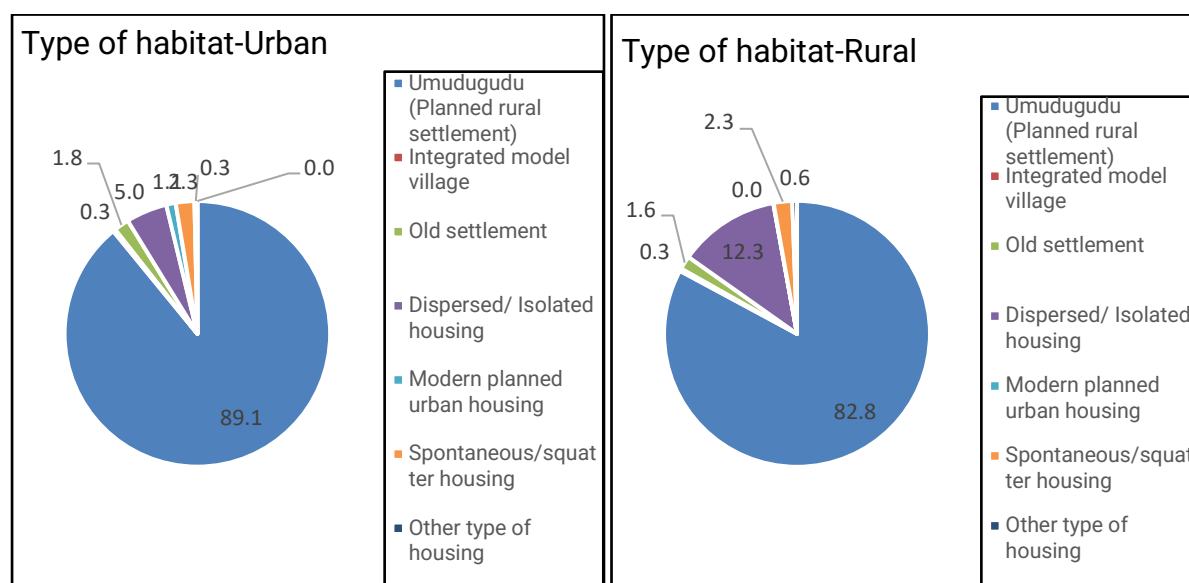

Table4. 3 Distribution (count and %) of the private households of Nyagatare District by type of habitat and Sector

Fifth Rwanda Population and Housing Census, 2022(NISR)

The type of habitat in Nyagatare District does not vary according to the area of residence. In both urban Rural areas, the predominant types are planned Rural settlement (89.1% and 82.8% respectively) and Dispersed/ Isolated housing is the second most predominant, (5% and 10.5% respectively). The figures below indicate details:

Figure 4. 1 Distribution (%) of the private households of Nyagatare District by type of habitat and by Area of residence

Fifth Rwanda Population and Housing Census, 2022(NISR)

4.2.2 Tenure of the housing in Nyagatare District

The results of 5th RPHC 2022 indicate that the ownership of housing in the East Province represents 72.1% and tenants represent 21.1%. In Nyagatare District, 68.4% of housing units are occupied by owner while 26% are occupied by their tenant. At the sector level, the percentage of owners of households' units is high in Kiyombe (88.1%), Gatunda (80.3%) and Karama (79%) and low in Nyagatare (53.7%), and Rwempasha (55.5%). The percentage of tenants of housing units is high in Nyagatare (40.3%), Rwempasha (39.5%), and Matimba (34.5%) and low in Kiyombe (8.3%). The table below indicate details:

Table4. 4 Distribution (%) of the private households of Nyagatare District by tenure of the housing units and by Sector

Fifth Rwanda Population and Housing Census, 2022(NISR)

In Nyagatare District, 3 types of tenure of housing units (owners, tenants and free lodging) are predominate in urban area as well as in rural area and their percentages vary substantially according to the area of residence. The percentage of owners of housing units is 54.5% in urban areas to 73% in rural areas, The percentage of tenants of housing units is 40.3% in urban areas to 21.3% in rural areas. The percentage of free lodging is same 3.2% in urban and rural areas. The figures below indicate details:

Figure 4. 2 Distribution (%) of the private households of Nyagatare District by tenure of the housing and area of residence

Fifth Rwanda Population and Housing Census, 2022(NISR)

4.2.3 Material of the housing units in Nyagatare District

4.2.3.1 Main materials of the roof

The results of 5th RPHC 2022 indicate that housing units are mainly covered by iron sheets in Rwanda (74.1%), in the East province, the Iron sheet represent (98.9%). In Nyagatare District, housing units are mainly covered by iron sheets (99.4%). Only 0.3% are covered by local tiles, 0.1% by non-durable roofing and 0.1% by other material. The variation by sector is not very significant. The table below displays details:

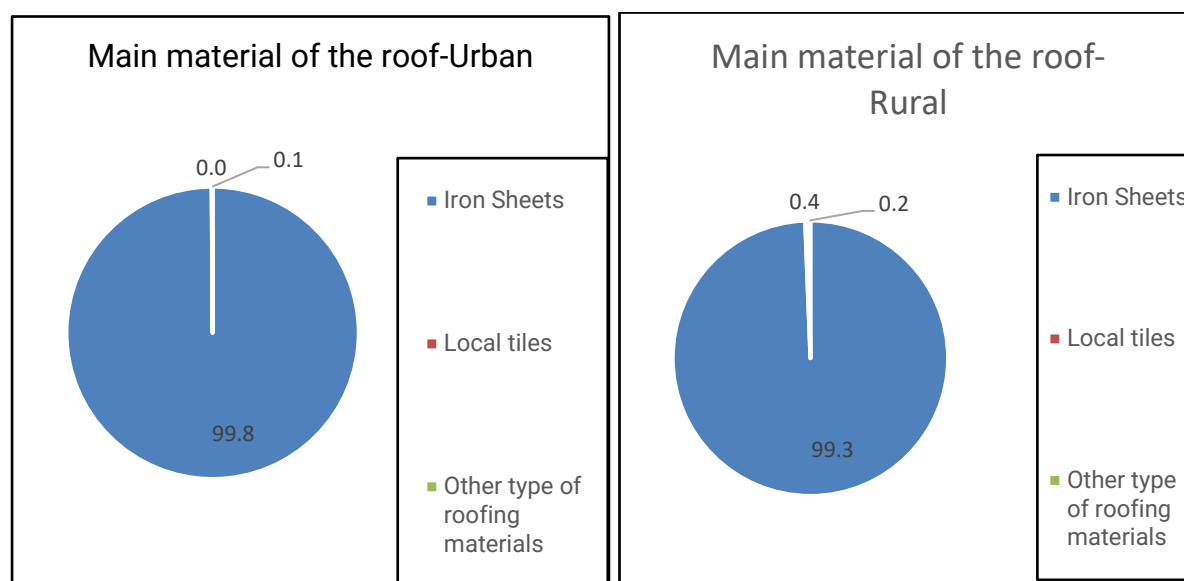

Table 4. 5 Distribution (count and %) of the private households of Nyagatare District by main material of the roof of the housing units and by Sector

Fifth Rwanda Population and Housing Census, 2022(NISR)

The results of the census reveal that the materials used for roofing of the households' units in Nyagatare District is mostly Iron sheet. In both rural and urban areas of Nyagatare District, the predominant roofing materials are the iron sheets (99.3% in rural and 99.8% in urban areas). The percentage of housing units covered by local tiles is less than one percent in rural and urban areas. The figure below illustrates details:

Figure 4. 3 Distribution (%) of the private households of Nyagatare District by main material of the roof of the housing

Fifth Rwanda Population and Housing Census, 2022(NISR)

4.2.3.2 Main materials of the walls

The results of the census show that the housing units wall are mostly built with sundried bricks in Rwanda (67%), and 66.9% in the East province. In Nyagatare District, walls of the housing units are also mostly built with sundried bricks (91%) and wood/mud (5.9%). At the sector level, sun dried bricks are the mostly used materials in Katabagemu (97.6%), Musheru (95.8%) and Karama (94.5%). Wood/mud is the most frequently used material in Kiyombe (28.1%) and Matimba (13.4%). The table below displays details:

Table4. 6 Distribution (count and %) of the private households of Nyagatare District by main material of the walls of the housing unit and by Sector

Fifth Rwanda Population and Housing Census, 2022(NISR)

The main materials used for walls of the housing units in Nyagatare District are mostly sun-dried bricks, wood with mud and burnt bricks and their percentages vary substantially according to the area of residence. In urban areas, the predominant materials are sundried bricks (90%) followed by burnt bricks (6.2%) and wood with mud (2.5%). In rural areas, sundried bricks are predominant materials with 91.30% followed by wood with mud (7.2%) and burnt bricks (0.7%). The figure below provides details:

Figure 4. 4 Distribution (%) of the private households of Nyagatare District by main material of walls of the housing unit and by area of residence

Fifth Rwanda Population and Housing Census, 2022(NISR)

4.2.3.3 Main materials of the floor

The results 5RPHC 2022 indicate that the main material of the floor in the housing units is earth (60.4%) followed by cement (31.2%) countrywide. In the East province, the Earth is the main material of the floor of the housing units (60.9%). In Nyagatare District, the main material of the floor of the housing units is also Earth (64.9%) followed by Cement (31.9%) and Dung hardened (2%). At sector level, the Earth as the main material used for the floor. With Kiyombe and Mukama having the highest prevalence (83.6% and 81.7% respectively), it is less prevalent in Nyagatare Sector (49.4%) which uses at high level the cement (46.4%). Other housing units using Cement as main material for the floor are Matimba (40.3%) and Karangazi (37.4%). The table below displays details:

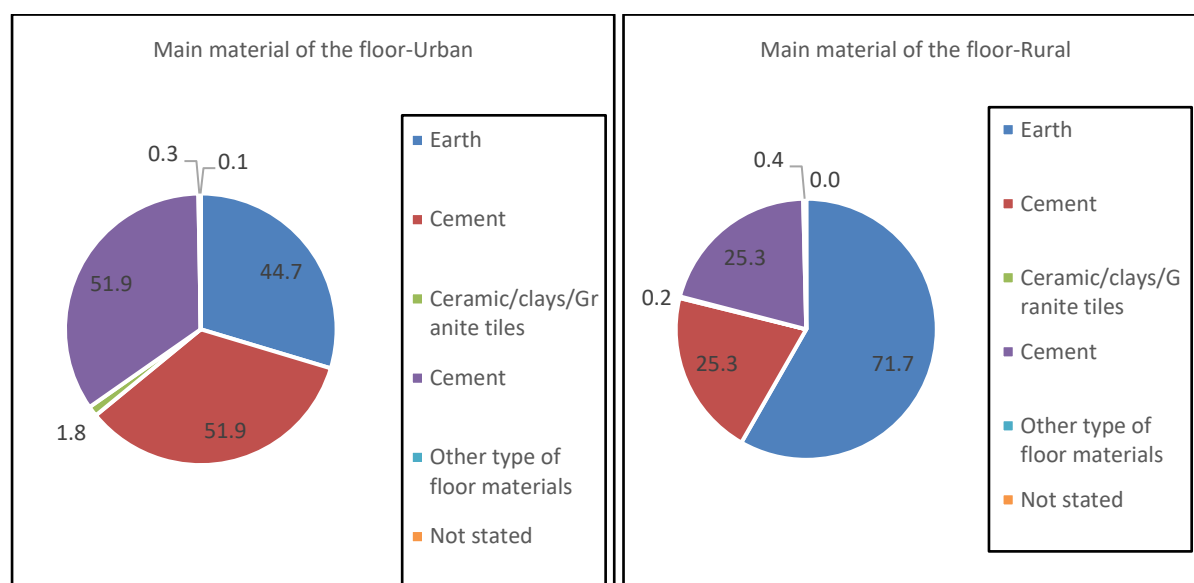

Table4. 7 Distribution (count and %) of the private households of Nyagatare District by main material of the floor of the housing unit and by Sector

4.3.3 Main sources of energy for cooking in Nyagatare District

At the District level, the main sources of energy for cooking used by the private households are firewood (83.6%) followed by charcoal (7.1%) and crop waste (5.6%). At the sector level, firewood is the most used source of cooking energy by private households. It is very high in Kiyombe (95.8%) and Mukama (94.9%). Sectors with the high percentage of private households using charcoal are Nyagatare (18.8%), Matimba (9.2%) and Rwimiyaga (8.5%). Sectors with the highest percentages of private households using crop waste as main source of cooking energy are Katabagemu (17.4%), Musheri (11.2%) and Tabagwe (9.9%). The table below illustrates details:

Fifth Rwanda Population and Housing Census, 2022(NISR)

The results of the census show that the access to the Internet varies greatly in accordance with the area of residence in Nyagatare District. In urban areas, 55.7% of private households have at least one member accessing the Internet. In rural areas, private households whose at least member accessing the Internet are only 17.8%. The figure below provides details:

Figure 4. 13 Percentages of the private households of Nyagatare District that having access to the Internet by area of residence.

Fifth Rwanda Population and Housing Census, 2022(NISR)

CHAPTER 5: AGRICULTURE IN NYAGATARE DISTRICT

The agriculture was the one of the areas of investigation of the 5th Rwanda Population and housing census conducted in 2022. The households engaged in Livestock husbandry; the number of private crop farming households cultivating different types of crops, by Sector, the number of private households raising different types of livestock, by Sector and type of household raised in district were captured in the census.

5.1 The households engaged in crop farming and livestock husbandly

The results of 5th RPHC 2022 revealed that nationally, 2,280,854 of private households (68.9%) are engaged in agriculture, among them 62.6% are engaged in crop farming and 50.4% are engaged in Livestock husbandry. In Nyagatare District, Agricultural households occupy (66.3%) with 59.3% of households engaged in crop farming and 39.2% Households engaged in Livestock husbandry. Nyagatare District is mostly rural where the agriculture activities are practiced on high scale. Kiyombe sector has a high proportion of Households engaged in crop farming (84.7%) and Households engaged in Livestock husbandry (60.5%). The table below provides details:

Table5. 1 Distribution of household engaged in livestock husbandly in Nyagatare District.

Fifth Rwanda Population and Housing Census, 2022(NISR)

5.3 Distribution of private households engaged in raising different types of livestock, by Sector

Nationally and in the East province, the results of the census indicate that most private households are considerably more engaged in raising cows, goats, and chicken than other livestock. Nyagatare District also follows the same pattern. The sectors that have a high proportion of private households that are engaged in livestock are: Karangazi with 3661 goats and 3,249 Cows followed by Rwimiyaga with 3,392 Goats and 2,447 Chickens. Cows are predominant in Karangazi Sector (3,249 Cows), Katabagemu has the least number of cows (766 Cows). Goats are mostly raised in Karangazi (3,662 Goats) while Matimba has the least (1,416 Goats) Chickens are also predominant in Karangazi (2,989) while they are least in Kiyombe (796 Chickens). The table below displays details:

Table5. 3 Number of private households raising different types of livestock, by Sector.
