# OCTOBER 2019 INDEX OF INDUSTRIAL PRODUCTION (IIP)

*This is the monthly Index of Industrial Production (IIP).  
Series has been developed by the National Institute of  
Statistics of Rwanda (NISR) to provide more timely  
estimates of the broad trends of industrial output.*

## Notes

In 2017, Rwanda has subscribed to IMF Enhanced General Data Dissemination System (E-GDDS). The E-GDDS is considered as a transition to the Special Data Dissemination Standard (SDDS) which is a more advanced stage. The aim was to subscribe to SDDS by June 2019. The system aims to encourage member countries to improve data quality; and guide member countries in the dissemination to the public of comprehensive, timely, accessible, and reliable economic, financial, and socio-demographic statistics.

In this regards, NISR as responsible institution for the compilation and publication of official statistics in Rwanda has mandate to develop the Index of Industrial Production (IIP) one of the missing requirement to fully compliance with SDDS. IIP series were developed since 2017 and the first publication was done in June 2019. In this publication a series from January 2011 have been compiled and availed to the public.

The Index of Industrial Production (IIP) is a statistical instrument used to monitor the monthly trends in output of industrial activities. By the SDDS, the index for any reference month has to be released within six weeks from the end of that month. They are developed based on a range of short term (monthly) indicators of economic activity. These sources are still under development. These series should therefore be considered as experimental, and will be further developed in the coming period to improve their quality and consistency with the annual estimates.

The IIP in this statistical release relates to the activity of businesses in the formal sector in Rwanda, defined as those registered with the tax authorities. The IIP series is entirely consistent with the quarterly estimates of Gross Value Added published by NISR, which still provide the most comprehensive and detailed assessment of economic activity.

The scope of the IIP as recommended by the United Nations Statistical Office (UNSO) includes mining and quarrying, manufacturing, construction, electricity, gas and water production and supply. But due to constraints of data availability, the IIP compiled in Rwanda has excluded construction activities.

The IIP is produced based on monthly indicators of the volume of economic activity for eleven Rwanda Classification of Products by Activity (RCPA). These are weighted together based on the gross value added in the reference year for the series (currently, 2014), consistent with the estimates of published value added within the Gross Domestic Product series, see table 3. The correspondence table between RCPA and ISIC (International Standard Industrial Classification) Revision 4 is shown in Table 4.

Table 4: 2014 Gross Value Added

RCPA	Activity	Gross Value Added (RWF, billions)	Percentage of total GVA
B	Mining & quarrying	147.1	41.1%
CA	Manufacturing of food	47.3	13.2%
CB	Manufacturing of beverages & tobacco	53.7	15.0%
CC	Manufacturing of textiles, clothing & leather goods	2.9	0.8%
CD	Manufacturing of wood & paper; printing	5.7	1.6%
CE	Manufacturing of chemicals, rubber & plastic products	14.6	4.1%
CF	Manufacturing of non-metallic mineral products	8.4	2.3%
CG	Manufacturing of metal products, machinery & equipment	11.2	3.1%
CH	Furniture & other manufacturing	7.8	2.2%
D	Electricity	47.1	13.1%
E	Water & waste management	11.9	3.3%
	<b>Total</b>	<b>357.9</b>	<b>100.0%</b>
