The National Institute of Statistics of Rwanda (NISR), every year organizes a competition that calls university students (both private and public) to visualize statistical messages published by NISR on the website into infographics and interactive dashboards. The objective of this competition is to increase statistical literacy and awareness as well as statistical advocacy and data dissemination among the youth. This competition is part of the celebration of African Statistics Day which is celebrated every year since 1990. The African Statistical community celebrates African Statistics Day (ASD) with the objective of raising awareness about the importance of statistics in the economic and social development of the continent.
