Datasource:

Foreign Private Capital Census

Period:

January, 2014 to December, 2014

This Foreign Private Capital Census was conducted in 2015

The Foreign Private Capital Census (FPC) 2015 is the sixth in a series of annual censuses conducted by the National Bank of Rwanda in collaboration with National Institute of Statistics of Rwanda, Rwanda Development Board and Private Sector Federation.

The main objective of the census is to collect information required for the compilation of Rwanda balance of payments, international investment position statements and determines the magnitude and trends of FPC in Rwanda.

The FPC 2015 census provides actual flows and stock of foreign private capital statistics in Rwanda for the year 2014.
