Imihigo Evaluation

Period:

June, 2017 to July, 2018.

The evaluation of Imihigo at the local government level shows high variations in the districts performance with the highest performer, Rwamagana, scoring 84.5% and the lowest performer, Nyanza, scoring 53%.

Overall, high performing districts exhibit good project planning capability and leadership that is able to nurture a sense of common purpose around Imihigo across the institution and implementing partners. On the other hand, a key feature of low performing districts is poor design of projects, coupled with poor completion rates and poor quality of the outputs that were completed. Districts in the middle display a mixture of positive and negative characteristics similar to those found amongst top and bottom performers, respectively. The City of Kigali scored 55.5% on average.
