Datasource:

Imihigo Evaluation

Period:

June, 2017 to July, 2018.

There is variation between districts performance with the highest Rwamagana scoring 84.5% and the lowest Nyanza scoring 53%. Development challenges at district level are mostly homogeneous however, some districts exhibit good capacity to implement better.

High performing districts exhibit good project planning capability and leadership that is able to nature a sense of common purpose around Imihigo across the institution and partners. On the other hand, a key feature of low performing districts is poor design of projects. This affects both completion and quality. Districts in the middle display a mixture of positive and negative patterns similar to those found amongst top and bottom performers.
