National Institute of Statistics of Rwanda (NISR), Producer Price Index (PPI) Report, September 2025

Summary

This is the monthly publication of the Producer Price Index (PPI) for the month of September 2025.

On annual basis:

- General Producer Price Index increased by 13.5 percent;
- Local Producer Price Index increased by 12.9 percent;
- Export Producer Price Index increased by 14.9 percent.

On monthly basis:

- General Producer Price Index increased by 2.5 percent;
- Local Producer Price Index increased by 0.3 percent;
- Export Producer Price Index increased by 7 percent.

1. Introduction

The Producer Price Index (PPI) measures the average change over time in prices received by domestic producers to produce their goods and services. The PPI for Rwanda is published on monthly basis. It presents price changes for all aggregated products, products for local sales and that for exports.

PPI survey covers a sample of 114 establishments and 402 products spread countrywide (Kigali and provinces). This survey is conducted in collaboration with the National Bank of Rwanda (NBR), and it covers mining, manufacturing, and utilities.

2. General Producer Price Index

Table below presents the percentage changes on monthly and annual basis.

Table 2: Producer Price Index, General Index summary

Level	Index ID	ISIC rev. 4 Description	Weights	Percentage change in September 2025	
				on Aug. 2025	on Sept. 2024
2	RB	Mining and quarrying	96	0.0	1.0
2	RC	Manufacturing	714	3.2	14.5
2	RD	Electricity, gas, steam and air conditioning supply	58	0.0	34.8
2	RE	Water supply; sewerage, waste management and remediation activities	129	0.0	0.0
2	RJ	Information and communication	3	0.0	0.0

Source: NISR

In September 2025, the general PPI increased by 13.5 percent when compared to the same month of 2024. This is mainly due to an increase of 14.5 percent in prices of Manufacturing.

On a monthly basis, the general PPI increased by 2.5 percent. This is mainly due to an increase of 3.2 percent in the prices of manufacturing activities.

3. Local Producer Price Index

The table below presents the percentage changes on monthly and annual basis.

Table 3: Producer Price Index, Local Index summary

Level	Index ID	ISIC rev. 4 Description	Weights	Percentage change in September 2025	
				on Aug. 2025	on Sept. 2024
1	R	Rwanda	1000	0.3	12.9
2	RC	Manufacturing	749	0.4	13.4
2	RD	Electricity, gas, steam and air conditioning supply	76	0.0	34.8
2	RE	Water supply; sewerage, waste management and remediation activities	171	0.0	0.0
2	RJ	Information and communication	4	0.0	0.0

Source: NISR

In September 2025, the local PPI increased by 12.9 percent when compared to the same month of 2024. This is mainly due to an increase of 13.4 percent in the prices of manufacturing activities.

On a monthly basis, the local PPI increased by 0.3 percent. This is mainly due to an increase of 0.4 percent in prices of manufacturing activities.

4. Export Producer Price Index

The table below presents the percentage changes on monthly and annual basis.

Level	Index ID	ISIC rev. 4 Description	Weights	Percentage change in September 2025	
				on Aug. 2025	on Sept. 2024
4	RB0729	Mining of other non-ferrous metal ores	393	0.0	1.0
6	RC107980	Manufacture of coffee products	268	14.6	15.3
6	RC107990	Manufacture of tea products	328	1.3	17.6
4	RC2029	Manufacture of other chemical products n.e.c.	10	0.2	8.9

Source: NISR

In September 2025, the export PPI increased by 14.9 percent when compared to the same month of 2024. This is due to an increase of 1 percent in the prices of mining, an increase of 15.3 percent in the prices of coffee products and an increase of 17.6 percent in the prices of tea products.

On a monthly basis, the export PPI increased by 7 percent. This due to an increase of 14.6 percent in the prices of coffee products and an increase of 1.3 percent in the prices of tea products.

Technical note on PPI

The Producer Price Index (PPI) measures the average change over time in the prices received by domestic producers of goods and services, which are outputs of production or enter into the production process.

NISR publishes PPI data for Mining, Manufacturing, and Energy; it is published on a monthly basis, about 4 weeks following the month under review.

The establishments are classified according to ISIC rev. 4, and the classification is determined by their main output.

The weights used in the PPI for Rwanda refer to the value of output (turnover without taxes) of establishments as reported in the 2011 Manpower survey collecting data for the year 2010, which constitutes the reference base period for the PPI calculation (December 2010).

The point of pricing is the establishment. The price is the selling price received by the producer for the selected product as it leaves the factory gate. In general, prices are collected each month from the selected establishment by considering the mid-point of each month of the month under review.

The formula used in the PPI calculation is the geometric modified Laspeyres.
